

SUSTAINABILITY POLICIES

TOUR DE RÍOS is a receptive tourism operating agency that aims to offer rural, nature tourism experiences in the Chocó rivers, as an engine for the development of their communities. Our purpose is to promote rural tourism, following the 3 principles of sustainable development, which are: Economic performance, Social responsibility and Environmental Balance.

Our main objective is to create value through natural, cultural and social assets, attracting travelers interested in tourism in rural destinations, nature, Afro-Colombian and indigenous culture, through our social networks, website and strategic alliances. We seek with this, the improvement of the quality of life of the Chocoan riverside communities and the conservation of the river basins, which have always served as a means of transport and sustenance for the Chocoanos.

OUR SUSTAINABILITY POLICIES ARE:

- Implementation and socialization of good environmental practices, aimed at minimizing the negative environmental impacts resulting from our operations.
- Implementation of technical, technological and infrastructure improvements to minimize negative environmental impacts resulting from our operations.
- Rational and efficient use of natural resources in all the activities of our organization.
- Dissemination of environmental culture through our social networks, website and all forms of advertising; training for our collaborators and strategic allies who need it.
- Actions aimed at improving the quality of life of the inhabitants of the communities where we have operations.
- Distribution of income fairly, with our collaborators in the communities.
- Respect and safeguarding the customs, traditions and culture of the communities where we have operations.
- Compliance with current environmental legislation.

In order to implement this policy, the following lines of work are established:

- ✓•Rational use of water and energy

- ✓•Rational use of paper
- ✓•Disposal of single-use plastics
- ✓•Respect for load capacities
